

9-6-18

I am seeking board approval for taking a trip to Tampa, Florida with BLHS students. The trip is through World Strides and is completely organized by their company. All money is paid directly to World Strides with a payment plan and it is an all-inclusive trip. The trip is designed to give students the unique opportunity to study biology outside of the classroom. Their activities would include swimming with manatees, snorkeling, kayaking through mangroves, a squid dissection, and a trip to Busch Gardens. I would need to have a minimum of 15 students signed up in order to take the trip. The date of the trip would be June 3-6, 2019. The cost for each student is \$1845 but this includes airfare, admission fees, all meals, hotel accommodations and World Strides staff to chaperone and lead the trip. Financial assistance is also available for the students.

Thank you,  
Jodi Berger
